

*"Having a team room for meetings and to watch videos will allow us to learn more and be better able to compete. Hickory Soccer will finally have a real public announcement system and it will be wonderful to clearly hear the national anthem, players' names, and announcements!"*

— Pammy Fish, Women's Soccer Player, HHS Class of 2017

*"The Hickory High student-athletes need the support of our community in order to succeed. This building will be a huge boost in helping to make an already strong program even stronger."*

— Ben Pleasant, Men's Soccer Player, HHS Class of 2015

## Future Home for HHS Tornado Soccer & Softball

*"As soccer has grown at HHS, we have encountered a need for a dedicated facility to serve team functions. We currently have no designated space for team meetings. A sheltered press box is also required. The capability to video games from an overhead position should improve team performance and make us competitive with the resources of other schools."*

— Brian Jillings, Head Coach, Men's and Women's Soccer

## OUR STUDENT-ATHLETES NEED YOU!

**A tradition of excellence runs deep at Hickory High School. Thousands of our community's student-athletes have competed successfully both in the classroom and on the field, bringing championship pride to our school and our community.**

**Our soccer and softball programs have a long history of both team and individual accomplishments. We have cheered on all-conference, all-state and scholarship-winning athletes over the years and our Tornado Pride is strong.**

**It is now time to upgrade our facilities to provide the best environment for these athletes so that they may continue to realize their potential and reach for the stars.**

## A NEW SOCCER AND SOFTBALL COMPLEX IS WITHIN REACH . . .

The Hickory Public Schools Board of Education and the Administration of Hickory High School have both endorsed this project and given the greenlight to move forward with construction once all funds are committed and in-hand. Your support today will help move this effort forward so that our athletes have the best possible facilities within which to learn, train and excel.

**We need YOU to make it happen!**
